

## CAROUSEL OF SKILLED TRADES OCCUPATIONS

**Teacher note:** The result of this activity will be a carousel that students can tour to learn more about the many skilled trades in each of the four sectors of apprenticeship. Students can create any visual presentation to report on their assigned occupations (eg. posters, powerpoints, videos, drama presentations etc.).

Students can each be assigned one skilled trade to present or can work in groups to present a few. The key is encouraging students to present their findings in an interesting way that will make students want to learn even more. Be sure that a wide variety of trades are presented.

### Information Required for each Trade:

- ✓ Name of Skilled Trade
- ✓ Description of duties and responsibilities
- ✓ Skills that a person uses in this trade
- ✓ Training and education required
- ✓ Work environment
- ✓ Potential earnings
- ✓ Future employment outlook
- ✓ Related occupations
